

BIO | SCIENCE

**INDICATION:**

All skin types.

**TEXTURE:**

Fluid.

**DESCRIPTION:**

Ultra-lifting and redensifying anti-aging concentrate ideal to ensure a complete rejuvenation of the face, neck and décolleté with wrinkles and lacking firmness. This exclusive multi-purpose formula consists of a powerful trilogy of restructuring peptides complex\* associated with micro-liposomes of fragmented hyaluronic acid and stabilized vitamin C. This energizing synergy helps intensely stimulate all of the natural constituents of the extracellular matrix to deeply repair the dermis, fill wrinkles to the surface, firm the skin and reduce the appearance of pores. Rich in antioxidants and anti-inflammatory active ingredients, this serum helps to combat oxidative stress and the formation of advanced glycation end products (AGEs) that cause deep wrinkles, lack of firmness and lack of vitality.

*\*Peptides combined with lipids for optimal absorption.*

**RESULTS:**

- **From the first application**

- The facial features appear immediately smoothed
- The complexion appears instantly refreshed, younger and revitalized
- The skin is left feeling ultra-soft and protected from everyday aggressions

- **In less than 8 weeks**

- Wrinkles are visibly diminished in terms of volume, surface and depth
- The skin regains tone and firmness
- The appearance of pores is refined
- The oval of the face appears lifted and reshaped

**DIRECTIONS:**

On cleansed skin, apply evenly on face, neck and décolleté morning and/or evening. Massage until complete penetration. For external use. Avoid contact with the eyes.

**MAIN INGREDIENTS:**

**Trilogy of Peptides Complex, Marine Collagen, Fragmented Hyaluronic Acid, Stabilized Vitamin C, Glycogen, Camomile Extract.**

## ADDITIONAL INGREDIENT INFORMATION

### **Trilogy of Peptides Complex**

- Complex of cellular messengers stimulates the natural synthesis of the constituents of the extracellular matrix including collagen I, III, IV, elastin, hyaluronic acid, fibronectins and lamina V
- Fights inflammation mediators involved in the phenomenon of glycation
- Significantly reduces the appearance of fine lines and wrinkles
- Accelerates the healing and scarring process
- Firming effect

### **Marine Collagen**

- Obtained exclusively from non-endangered hot water fish species
- Powerful moisturizing agent
- Improves the appearance of the cutaneous relief and wrinkles
- Forms a soft film on the surface of the skin

### **Glycogen**

- Patented polysaccharide
- Anti-UVB effect
- Inhibits the accumulation of free radicals induced by UVB
- Boosts ATP production in mitochondria
- Promotes the natural production of ceramides and hyaluronic acid
- Improves the hydration and elasticity of the skin to reduce the appearance of fine lines and wrinkles

### **Stabilized Vitamin C**

- Stabilized patented Vitamin C
- Reduces the appearance of skin irregularities
- Antioxidant, it neutralizes reactive oxygen species
- Brightening, it normalizes the production of melanin and brightens the complexion
- Softening and smoothing

### **Fragmented Hyaluronic Acid**

- Exceptional ability to hold up to 1000 times its weight in water
- Very powerful anti-aging active
- Fills the surface micro-wrinkles and plumps deep wrinkles
- Improves the cutaneous relief
- Vital role in skin scarring
- Antioxidant, it helps protect against the attacks of free radicals
- Offers a soft yet comfortable feel without a greasy finish

### **Camomile Extract**

- Soothing and anti-inflammatory
- Helps prevent inflammatory responses
- Relieves feelings of discomfort
